**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer that fully supports broadband competition!

In my area, i am blessed with the ability to choose among 4 or more providers. I chose my current ISP based on service and cost.

I say NO to price hikes that will increase the cost of internet and telephone services.

Broadband is critical to innovation (it's a key piece of infrastructure that drives new ideas, disruptive approaches, and HUGE parts of the economy in the bay area)!

I previously subscribed to cable-based broadband, but chose fiber due to several magnitudes better bandwidth offerings.

My ISP packages telephone service with internet and has been amazingly reliable!
